

Sesame Street: Coming Together Celebrate Diversity

God loves diversity (Genesis 1:1–2:4)

God created the whole world—sun, moon, stars, land, and seas. Then, “God said, ‘Let the earth produce every kind of living thing...’” and God made cacti, fruit trees, plants that eat bugs, and grass (There are 11,000 kinds of grass!). Then God made animals and humans, and there are countless kinds of animals and humans too! Diversity was part of God’s plan from the beginning.

Diversity means:

- Understanding and appreciating our differences
- Appreciating all the things that make us who we are

Wonder together:

- What makes you who you are?
- How can you show appreciation to people who are different from you?
- What is one way you can celebrate the diversity of your community this week?

Practice the sign for “diversity”
